

TREND SCHEDULE

The trend schedules are unaudited and include certain financial measures that are considered Non-GAAP financial measures under the regulations of the Securities and Exchange Commission ("SEC"), including but not limited to organic revenue and Adjusted EBITDA. We believe that the presentation of certain Non-GAAP financial measures provides information that is useful to investors because it allows for a more direct comparison of our performance for the period with our performance in the comparable prior-year periods. The Company defines Adjusted EBITDA - Non-GAAP as earnings before interest, taxes, depreciation and amortization, gain on sale of fixed assets, stock-based compensation expense, and certain non-recurring items. As required by the SEC, we have provided a reconciliation of those measures to the most directly comparable GAAP measures on the Regulation G schedules on pages 6-8. We caution that Non-GAAP financial measures should be considered in addition to, but not as a substitute for our reported GAAP results.

Additionally, the trend schedules may contain "forward-looking statements". These statements relate to future events, our future financial performance, strategies, expectations, and competitive environment. Forward-looking statements include statements of expectations of businesses acquired, including expected benefits and synergies of the transaction, future financial and operating results, and other statements regarding events or developments that the Company believes or anticipates will or may occur in the future as a result of the acquisitions. Words such as "outlook," "believe," "expect," "anticipate," "estimate," "intend," "forecast," "may," "should," "could," "project," "target" and similar expressions, as well as statements in future tense, identify forward-looking statements. You should not consider forward-looking statements as guarantees of future performance or results. These statements do not necessarily indicate accurately whether such performance or results will be achieved or, if achieved, when. Forward-looking statements are based on information available at the time those statements are made and/or management's good faith belief at that time with respect to future events. Such statements are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors, assumptions, uncertainties, and risks that could cause such differences are discussed within Item 1, Business, Item 1A, Risk Factors and Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, included in our Annual Report on Form 10-K, filed with the SEC on September 9, 2014 and other risks outlined in our periodic filings with the Securities and Exchange Commission. Any forward-looking statements in the trend schedules are expressly qualified in their entirety by this cautionary statement. Except as required by law, the Company undertakes no obligation to update these forward-looking statements to reflect new information, or events or circumstances arising after such date.

Notes:

(a) Our backlog estimates represent amounts under master service agreements and other contractual agreements for services projected to be performed over the terms of the contracts and are based on contract terms, our historical experience with customers and, more generally, our experience in similar procurements. The significant majority of our backlog estimates comprise services under master service agreements and long-term contracts. Backlog is not a measure defined by United States generally accepted accounting principles; however, it is a common measurement used in our industry. Our methodology for determining backlog may not be comparable to the methodologies used by others.

(b) Total Q2-13 backlog included \$462 million of backlog from the Q2-13 businesses acquired.

Notes: Amounts above may not add due to rounding. Non-GAAP measures exclude the following reconciling items:

- GAAP cost of earned revenues includes charges of \$0.6 million and \$0.5 million in Q4-14 and Q4-13, respectively, for wage and hour class action settlements which are included as reconciling items herein.
- GAAP general and administrative expenses includes acquisition related costs related to the businesses acquired in Q2-13 and Q4-13 which are included as reconciling items herein.
- GAAP other income includes write-off of deferred financing costs in Q2-13 which is included as a reconciling item herein.
- Provision for income taxes includes the tax effect of the other reconciling items identified herein.

**Reconciliation of GAAP to Non-GAAP Measures
(Unaudited)**

The below table presents the Non-GAAP financial measure of Adjusted EBITDA for the indicated periods and a reconciliation of Adjusted EBITDA to net income, the most directly comparable GAAP measure.

<i>Annual Organic Growth:</i>						
Fiscal 2014	\$ 1,811.6	\$ (499.3)	\$ -	\$ 1,312.3	12.6%	4.7%
Fiscal 2013	\$ 1,608.6	\$ (337.9)	\$ (16.7)	\$ 1,254.0		
Fiscal 2013	\$ 1,608.6	\$ (337.9)	\$ (16.7)	\$ 1,254.0	33.9%	4.9%
Fiscal 2012	\$ 1,201.1	\$ -	\$ (6.0)	\$ 1,195.1		

Notes: Amounts may not add due to rounding.

- (a) Organic Revenue – Non-GAAP are revenues from businesses that are included for the full period in both the current and prior year quarter presented and both the current and prior year annual amount presented, excluding storm restoration services, if any. Organic Revenue growth (decline) is calculated as the percentage increase in revenues over those of the comparable prior year period (fiscal quarter or fiscal year) for revenues from businesses that are included in both periods for the full fiscal period, excluding revenues from storm restoration services, if any. As a result, revenues may be excluded in the calculation of annual organic revenue growth (decline) that are not excluded from the calculation of quarterly organic revenue growth (decline) for quarters within that fiscal year.
- (b) For comparisons of Organic Revenue beginning with Q3-14, Organic Revenue – Non-GAAP includes revenues of businesses acquired in Q2-13 as the revenues from these businesses are included in both quarters (Q3-14 and Q3-13). The annual comparison of Organic Revenue – Non-GAAP for fiscal 2014 exclude these revenues because they are not included in the comparable fiscal 2013 period for the full period.
