

Dycom Industries, Inc. Announces the Appointment of Its Executive Vice President and Chief Operating Officer

November 19, 2001
PRNewswire
PALM BEACH GARDENS, Fla.

Dycom Industries, Inc. announced today that the Board of Directors had appointed Timothy Estes as Executive Vice President and Chief Operating Officer. Mr. Estes has been employed by Dycom and its subsidiaries since November of 1993. He most recently served as President of AnSCO & Associates, Inc., one of Dycom's largest subsidiaries. Steven Nielsen, President and CEO, commented: "Tim's strong operational skills, wide knowledge of our industry, and proven track record of profitably managing growth will serve Dycom well as we manage through challenging times and position ourselves for renewed growth in the future.

Dycom is a leading provider of engineering, construction, and maintenance services to telecommunication providers throughout the United States. Additionally, the Company provides similar services related to the installation of integrated voice, data, and video local and wide area networks within office buildings and similar structures. Dycom also provides underground utility locating and mapping and electric utility construction services. Visit our web site at <http://www.dycomind.com/> for additional corporate information.
