

Investor Presentation

June 2022

Important Information

Caution Concerning Forward-Looking Statements

This presentation contains forward-looking statements as contemplated by the 1995 Private Securities Litigation Reform Act. These statements include those related to the outlook for the quarter ending July 30, 2022 found within this presentation. These statements are subject to change. Forward-looking statements are based on management's current expectations, estimates and projections. These statements are subject to risks and uncertainties that may cause actual results for completed periods and periods in the future to differ materially from the results projected or implied in any forward-looking statements contained in this presentation. The most significant of these risks and uncertainties are described in the Company's Form 10-K, Form 10-Q, and Form 8-K reports (including all amendments to those reports) and include the duration and severity of a pandemic caused by COVID-19, our ability to comply with various COVID-19 legal and contractual requirements and the impacts that those requirements may have on our workforce and our ability to perform our work, vaccination rates in the areas where we operate, any worsening of the pandemic caused by increasing infection rates triggered by new variants, future economic conditions and trends including the potential impacts of an inflationary economic environment, customer capital budgets and spending priorities, the availability and cost of materials, equipment and labor necessary to perform our work, the adequacy of the Company's insurance and other reserves and allowances for doubtful accounts, whether the carrying value of the Company's assets may be impaired, the future impact of any acquisitions or dispositions, adjustments and cancellations of the Company's projects, the related impact to the Company's backlog from project cancellations, weather conditions, the anticipated outcome of other contingent events, including litigation, liquidity and other financial needs, the availability of financing, the Company's ability to generate sufficient cash to service its indebtedness, restrictions imposed by the Company's credit agreement, and the other risks and uncertainties detailed from time to time in the Company's filings with the Securities and Exchange Commission. The Company does not undertake any obligation to update forward-looking statements.

Non-GAAP Financial Measures

This presentation includes certain "Non-GAAP" financial measures as defined by Regulation G of the SEC. As required by the SEC, an explanation of the Non-GAAP financial measures and a reconciliation of those measures to the most directly comparable GAAP financial measures are provided in the Company's Form 8-K filed with the SEC on May 26, 2022 and on the Company's Investor Center website at <https://ir.dycomind.com>. Non-GAAP financial measures should be considered in addition to, but not as a substitute for, the Company's reported GAAP results.

Dycom Overview

- Leading supplier of specialty contracting services to telecommunication providers throughout the US
- Intensely focused on the telecommunications market providing our customers with critical network infrastructure that is fundamental to economic progress
- Durable customer relationships with well established, leading telecommunication providers that span decades
- Anchored by Master Service Agreements (MSAs) and other long-term contracts
- Solid financial profile that positions us well to benefit from future growth opportunities

Financial Overview

Fiscal 2022 Annual Operating Performance

- Contract Revenues of \$3.131 billion
- Non-GAAP Adjusted EBITDA of \$244.3 million, or 7.8% of contract revenues

Backlog and Headcount as of April 30, 2022 (Q1 2023)

- Total Backlog of \$5.593 billion
- Employee headcount of 15,200+

Liquidity as of April 30, 2022 (Q1 2023)

- Solid liquidity of \$309.5 million
- Sound credit metrics and no near term debt maturities

Strong Secular Trend

Data usage and download/upload speeds continue to increase as consumer behavior moves to streaming, video conferencing, and connected devices

Average Upload Consumption Per Subscriber

“ Demand for high-speed broadband is increasing at an accelerating pace. Between 2020 and 2025, usage is expected to triple and fiber is clearly the best product to meet this rising demand. Fiber's performance is vastly superior to cable today with 34% faster download speeds, roughly 18x faster upload speeds and 42% lower latency level than cable. We're seeing the demand in real time across our network. ” - John Stratton, Executive Chairman, Frontier Communications, February 2022

Source: OpenVault Broadband Industry Reports

Accelerating Bandwidth Usage and Speed Tier Growth

- The monthly weighted average data consumed by subscribers in 4Q-21 was a record of 536.3 GB, up 11% from 4Q-20
- 83% of these subscribers are provisioned at speeds of 100+ Mbps
- The gigabit subscriber tier exceeded 12% of all subscribers for the first time in 4Q-21, up from 8.5% in 4Q-20

The industry effort to deploy high-capacity fiber networks continues to meaningfully broaden the set of opportunities for our industry

- Major industry participants are constructing or upgrading significant wireline networks across broad sections of the country
- High-capacity fiber networks are increasingly viewed as the most cost effective technology, enabling multiple revenue streams from a single investment
- Fiber network deployment opportunities are increasing in rural America; federal and state support programs for the construction of communications networks in unserved and underserved areas across the country are unprecedented

Macroeconomic effects and supply constraints may influence the near-term execution of some customer plans; industry participants increasingly understand industry-wide cost pressures and are beginning in some instances to address those impacts

Our scale and financial strength position us well to take advantage of these opportunities to deliver valuable services to our customers, including integrated planning, engineering and design, procurement and construction and maintenance services

Intensely Focused on Telecommunications Market

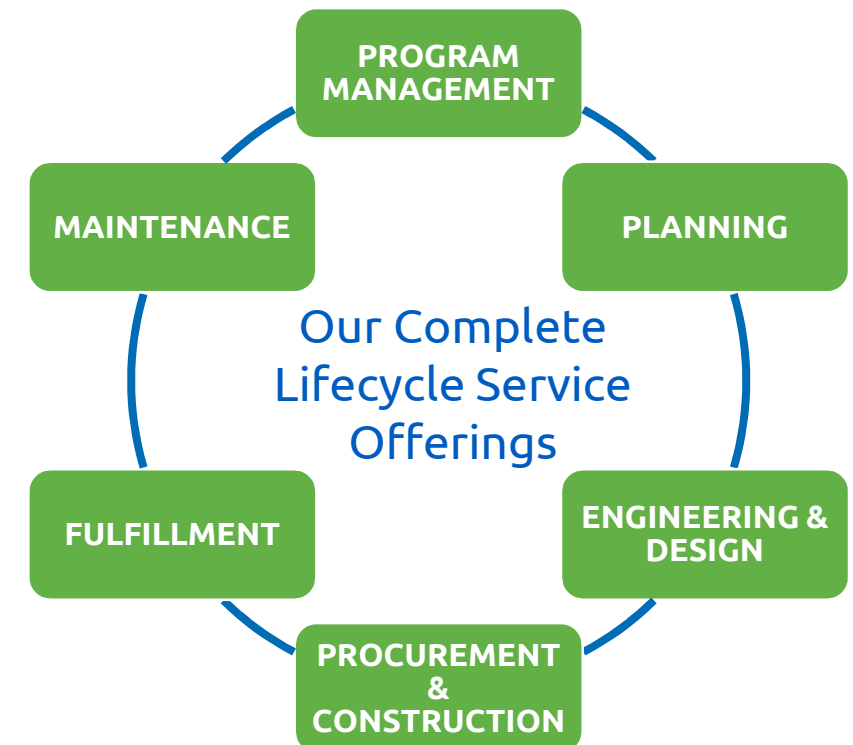

Dycom's extensive market presence and complete lifecycle services offering have allowed the Company to be at the forefront of evolving industry opportunities

- Telephone companies are deploying FTTH to enable gigabit high speed connections and, increasingly, rural electric utilities are doing the same
- Dramatically increased speeds to consumers are being provisioned and consumer data usage is growing, particularly upstream
- Wireless construction activity in support of newly available spectrum bands is expected to increase next year
- Federal and state support for rural deployments of communications networks is dramatically increasing in scale and duration
- Cable operators are deploying fiber to small and medium businesses and enterprises, partly in anticipation of the customer sales process; deployments to expand capacity as well as new build opportunities are underway
- Customers are consolidating supply chains creating opportunities for market share growth and increasing the long-term value of our maintenance and operations business

Fiscal 2022 Revenue by Customer Type

Telecommunications	88.7%
Underground Locating	8.2%
Electric/Gas Utilities & Other	3.1%

Strong Tailwinds For Fiber Deployments

Increasing clarity around US telco fiber build plans

FTTH Passings Outlook

Source: Wells Fargo Equity Research Estimates

- Increasing consumer demand for bandwidth continues to drive fiber deployments
- Fiber passings with telcos are poised to materially accelerate, with an estimated **> 40 million** premises to be connected to fiber through 2025; doubling current passings
- By 2025, its estimated that almost 60% of US homes and businesses will have a direct fiber connection, vs. approximately 32% at the end of 2020

“ And with fiber being such a superior technology, let's talk about the number of residential and business customers not currently served by fiber. In fact, in urban and suburban areas, **we estimate there are roughly 50 million households and nearly 10 million business locations that are prime for fiber and are not covered today.** „

- Jeffery McElfresh, CEO of AT&T Communications
AT&T, March 2022

“ Attaining and sustaining total revenue and EBITDA growth is our most critical milestone. And as we've said, we'll generate both in 2023... **It starts with scaling the fiber build. We doubled our build rates by second quarter 2021, and it has continued to scale rapidly since then. Look for us to double it yet again by the end of this year.** „

- John Stratton, Chairman of the Board
Frontier, May 2022

5G Deployment

Wireless construction activity in support of newly available spectrum expected to increase in 2022

Over \$80 billion in 5G Spectrum Investments

Source: J.P. Morgan Research

- Wireless carriers are increasing 4G capacity and augmenting 4G with new 5G technologies creating growth opportunities in the near to intermediate term
- Emerging wireless technologies driving significant wireline deployments
- Wireline deployments are the foundational element of what is expected to be a decades long deployment of fully converged wireless/wireline networks that will enable high bandwidth, low latency 5G applications

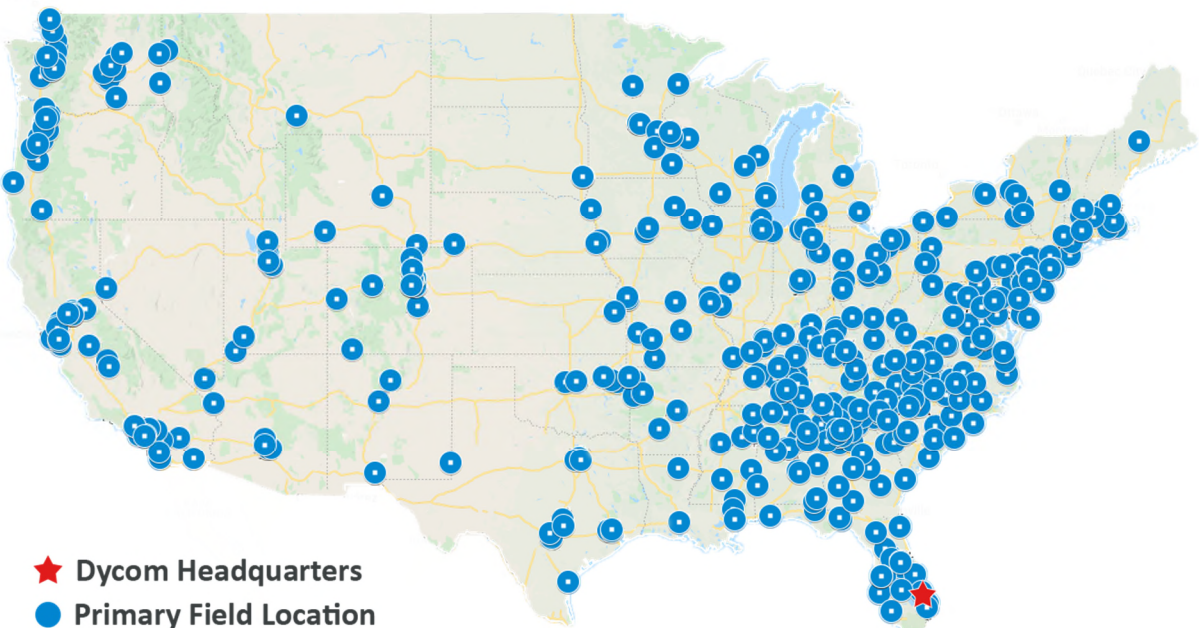

*“ We have invested more than \$40 billion of capital to-date in towers and more recently, small cells and fiber that are mission critical for wireless networks to pursue this opportunity... We are seeing significant demand for our infrastructure solutions with our customers **upgrading thousands of tower sites for 5G while also preparing for the next phase of network densification that will require tens of thousands of small cells** as reflected in our record backlog of 60,000 small cell nodes. ”*

*- Jay Brown, CEO
Crown Castle, April 2022*

Durable Customer Relationships

Anchored by Long-Term Agreements

FY 2022 Revenue by Contract Type

Backlog²

- Dycom is party to hundreds of MSA's and other agreements with customers that extend for periods of one or more years
- Generally multiple agreements maintained with each customer
- Master Service Agreements (MSA's) are multi-year, multi-million dollar arrangements covering thousands of individual work orders generally with exclusive requirements; majority of contracts are based on units of delivery
- Backlog at \$5.593 billion as of Q1 2023

10+ Years of Robust Cash Flow Generation

Robust cash flow generation and prudent capital allocation provide strong foundation for returns

Fiscal 2012 – Fiscal 2022

Strong operating cash flows of \$1.949 billion over 10+ years

Prudent approach to capital allocation:

- \$581 million invested in share repurchases
- \$582 million invested in business acquisitions
- \$1,155 million in CapEx, net of disposals

Capital Allocated to Maximize Returns

Dycom is committed to maximizing long term returns through prudent capital allocation

Invest in Organic Growth

- Focus on organic growth opportunities through strategic capital investments in the business

Pursue Complementary Acquisitions

- Selectively acquire businesses that further strengthen our customer relationships, geographic scope, and technical service offerings

Shares Repurchases

- Repurchased 26.6 million shares for approximately \$884 million from fiscal 2006 through April 30, 2022 (Q1 2023)
- As of April 30, 2022, \$131.5 million authorization available for share repurchases through August 2023

Committed to Sustainability

We believe that addressing sustainability risks and opportunities through our corporate strategy and operations allows us to best serve our stakeholders

FY 2022 Sustainability Highlights

- Built a program anchored to three core pillars – **People**, **Safety** and **Environment** – that are both important to our long-term success and important to our key stakeholders
- Completed a baseline ESG materiality assessment that identified our top priorities
- Established a cross-functional Sustainability Committee to lead Dycom's ESG program; reporting responsibility to the Board of Director's Corporate Governance Committee that maintains oversight of corporate responsibility and ESG matters
- Launched our initial Sustainability webpage:
<https://sustainability.dycomind.com/>
- Aligned our goals with four of the United Nations' Sustainable Development Goals (SDGs): Good Health, Quality Education, Good Jobs and Economic Growth, Climate Action

People

Employees are our most important resource and are at the heart of everything we do. We strive every day to create the right environment for them to grow their skills, work collaboratively, and deliver our services at the highest quality to our customers.

Safety

We strive to ensure the highest level of protection for our employees, customers, and the community in which we operate by fostering an instinctually safe culture.

Environment

Working together, we strive to continually reduce our environmental impact by embracing advancements in sustainable technologies optimized by core business practices and a highly skilled workforce.

FINANCIAL UPDATE

Annual Trends

Quarterly Trends

Debt and Liquidity Overview

Debt maturity profile and liquidity provide financial flexibility

\$ Millions	Q4 2022	Q1 2023
Debt Summary		
4.50% Senior Notes, mature April 2029	\$ 500.0	\$ 500.0
Senior Credit Facility, matures April 2026: ⁵		
Term Loan Facility	350.0	345.6
Revolving Facility	-	-
Total Notional Amount of Debt	\$ 850.0	\$ 845.6
Less: Cash and Equivalents	310.8	185.6
Notional Net Debt	539.2	660.1
Liquidity⁶	\$ 351.5	\$ 309.5

- Solid liquidity of \$309.5 million at Q1 2023
- Sound credit metrics and no near term debt maturities
- Capital allocation prioritizes organic growth, followed by opportunistic share repurchases and M&A, within the context of the Company's historical range of net leverage

Cash Flow Overview

Operating Cash Flow

\$ Millions

Cash Flow Summary

	Q1 2022	Q1 2023
Operating cash flow	\$ 41.5	\$ (64.9)
Capital expenditures, net of disposals	\$ (28.6)	\$ (33.0)
Proceeds from issuance of 4.50% Senior Notes	\$ 500.0	\$ -
Repayments on Senior Credit Facility	\$ (176.9)	\$ (4.4)
Debt issuance costs	\$ (11.2)	\$ -
Repurchase of common stock	\$ -	\$ (18.5)
Other financing & investing activities, net	\$ (6.0)	\$ (4.3)

Days Sales Outstanding ("DSO")

	Q4 2022	Q1 2023
Total DSO ⁷	108	105

- Operating cash flow used to support strong organic growth during Q1 2023
- Repurchased 200,000 common shares for \$18.5 million during Q1 2023
- Total DSOs of 105 days improved 3 days sequentially

The background image, tinted blue, shows a white utility truck with a crane arm. Two large wooden spools of fiber optic cable are mounted on the truck. The spool in the foreground has "FIBER OPTIC CABLE" and "1-85" printed on it. The truck has an "Altec" logo on its side. The scene is set outdoors with trees and a building in the background.

QUESTIONS AND ANSWERS

This slide was used on May 25, 2022 in connection with the Company's conference call for its fiscal 2023 first quarter results. This information is provided for your reference only and should not be interpreted as a reiteration of these projections by the Company at any time after the date originally provided. Reference is made to slide 2 titled "Important Information" with respect to these slides. The information and statements contained in this slide that are forward-looking are based on information that was available at the time the slide was initially prepared and/or management's good faith belief at that time with respect to future events. Except as required by law, the Company may not update forward-looking statements even though its situation may change in the future. For a full copy of the conference call materials, including the conference call transcript, see the Company's Form 8-Ks filed with the Securities and Exchange Commission on May 25, 2022.

Outlook for Quarter Ending July 30, 2022 (Q2 2023)

Q2 2023 Outlook:

CONTRACT REVENUES

Increase mid-teens to 20% as a percentage of contract revenues compared to Q2 2022

NON-GAAP ADJUSTED EBITDA % OF CONTRACT REVENUES

In-line to modestly higher compared to Q2 2022

INTEREST EXPENSE

\$9.5 million

EFFECTIVE INCOME TAX RATE

Approximately 27.0%

DILUTED SHARES

30.0 million

1. Due to the change in the Company's fiscal year end, the Company's fiscal 2018 six month transition period consisted of Q1 2018 and Q2 2018. Amounts provided for the Four Quarters Ended January 2018 represent the aggregate of Q3 2017, Q4 2017, Q1 2018, and Q2 2018 for comparative purposes to other twelve month periods presented.
2. The Company's backlog represents an estimate of services to be performed pursuant to master service agreements and other contractual agreements over the terms of those contracts. These estimates are based on contract terms and evaluations regarding the timing of the services to be provided. In the case of master service agreements, backlog is estimated based on the work performed in the preceding 12 month period, when available. When estimating backlog for newly initiated master service agreements and other long and short-term contracts, the Company also considers the anticipated scope of the contract and information received from the customer during the procurement process. A significant majority of the Company's backlog comprises services under master service agreements and other long-term contracts. Backlog is not a measure defined by United States generally accepted accounting principles ("GAAP") and should be considered in addition to, but not as a substitute for, GAAP results. Participants in the Company's industry often disclose a calculation of their backlog; however, the Company's methodology for determining backlog may not be comparable to the methodologies used by others. Dycom utilizes the calculation of backlog to assist in measuring aggregate awards under existing contractual relationships with its customers. The Company believes its backlog disclosures will assist investors in better understanding this estimate of the services to be performed pursuant to awards by its customers under existing contractual relationships.
3. Organic growth (decline) % adjusted for revenues from acquired businesses, storm restoration services, and for the additional week of operations during the fourth quarter as a result of the Company's 52/53 week fiscal year, when applicable.
4. In fiscal 2021 and fiscal 2022, the Company excluded certain tax impacts from the vesting and exercise of share-based awards when calculating Non-GAAP Adjusted Net Income (Loss). For comparability to other companies in the industry, the Company no longer excludes these tax impacts from its Non-GAAP measures beginning with the results for the first quarter of fiscal 2023. As there are no Non-GAAP adjustments for the first quarter of fiscal 2023, Non-GAAP Adjusted Net Income (Loss) for the quarter ended April 30, 2022 equals GAAP net income (loss).
5. As of Q4 2022 and Q1 2023, the Company had \$46.3 million and \$47.5 million of standby letters of credit outstanding under the Senior Credit Facility, respectively.
6. Liquidity represents the sum of availability from the Company's Senior Credit Facility, considering net funded debt balances, and available cash and equivalents. For calculation of availability under the Senior Credit Facility, applicable cash and equivalents are netted against the funded debt amount.
7. DSO is calculated as the summation of current and non-current accounts receivable (including unbilled receivables), net of allowance for doubtful accounts, plus current contract assets, less contract liabilities, divided by average revenue per day during the respective quarter. Long-term contract assets are excluded from the calculation of DSO, as these amounts represent payments made to customers pursuant to long-term agreements and are recognized as a reduction of contract revenues over the period for which the related services are provided to the customers.

The people connecting America®
