INVESTOR PRESENTATION

AUGUST 2025

IMPORTANT INFORMATION

CAUTION CONCERNING FORWARD-LOOKING STATEMENTS

This presentation contains forward-looking statements within the meaning of the 1995 Private Securities Litigation Reform Act. These forward-looking statements include those related to the Company's current assumptions regarding future business and financial performance, including, but not limited to, those statements related to our recent acquisitions and those found under the "Outlook" slides of this presentation. Forward-looking statements are based on management's expectations, estimates and projections, are made solely as of the date these statements are made, and are subject to both known and unknown risks and uncertainties that may cause the actual results and occurrences discussed in these forward-looking statements to differ materially from those referenced or implied in the forward-looking statements contained in this presentation. The most significant of these known risks and uncertainties are described in the Company's Form 10-K, Form 10-Q, and Form 8-K reports (including all amendments to those reports) and include future economic conditions and trends including the potential impacts of an inflationary economic environment, changes in government policies and laws affecting our business, including related to funding for infrastructure projects and tariff policies or changes to tax laws, changes to customer capital budgets and spending priorities, the availability and cost of materials, equipment and labor necessary to perform our work, the adequacy of the Company's insurance and other reserves and allowances for credit losses, whether the carrying value of the Company's assets may be impaired, the future impact of any acquisitions or dispositions, adjustments and cancellations of the Company's projects, the impact to the Company's backlog from project cancellations or postponements, the impacts of pandemics and public health emergencies, the impact of varying climate and weather conditions, the anticipated outcome of other contingent events, including litigation or regulatory actions involving the Company, potential liabilities or other adverse effects arising from occupational health, safety, and other regulatory matters, the adequacy of our liquidity, the availability of financing to address our financial needs, the Company's ability to generate sufficient cash to service its indebtedness, the impact of restrictions imposed by the Company's Senior Credit Facility, and other risks and uncertainties detailed from time to time in the Company's filings with the Securities and Exchange Commission. The Company does not undertake any obligation to update its forward-looking statements.

NON-GAAP FINANCIAL MEASURES

This presentation includes certain "Non-GAAP" financial measures as defined by Regulation G of the SEC. As required by the SEC, an explanation of the Non-GAAP financial measures and a reconciliation of those measures to the most directly comparable GAAP financial measures are provided beginning on slide 26 of this presentation. Non-GAAP financial measures should be considered in addition to, but not as a substitute for, the Company's reported GAAP results.

Sources: OpenVault Q2 2025 OVBI Report

- **A Self-Reinforcing Cycle:** Faster networks enable new technologies, which in turn drive the need for even faster, more reliable networks
- **Connectivity as an Essential Utility:** High-speed connectivity is no longer a luxury but a critical utility, making demand for it resilient across economic cycles

“As customer projects increase in scope and complexity, our proven performance, scale and financial strength position us well to anticipate and meet the growing demand.”

- Dan Peyovich
President and Chief Executive Officer

As the digital economy expands, the demand for robust and reliable infrastructure—from high-speed fiber to next-generation wireless networks—is growing at an unprecedented rate. Our comprehensive suite of services positions us to capitalize on this significant investment cycle, enabling us to deliver the critical infrastructure that connects America.

DYCOM'S STRATEGIC WORKFORCE MANAGEMENT IS A CORE DIFFERENTIATOR

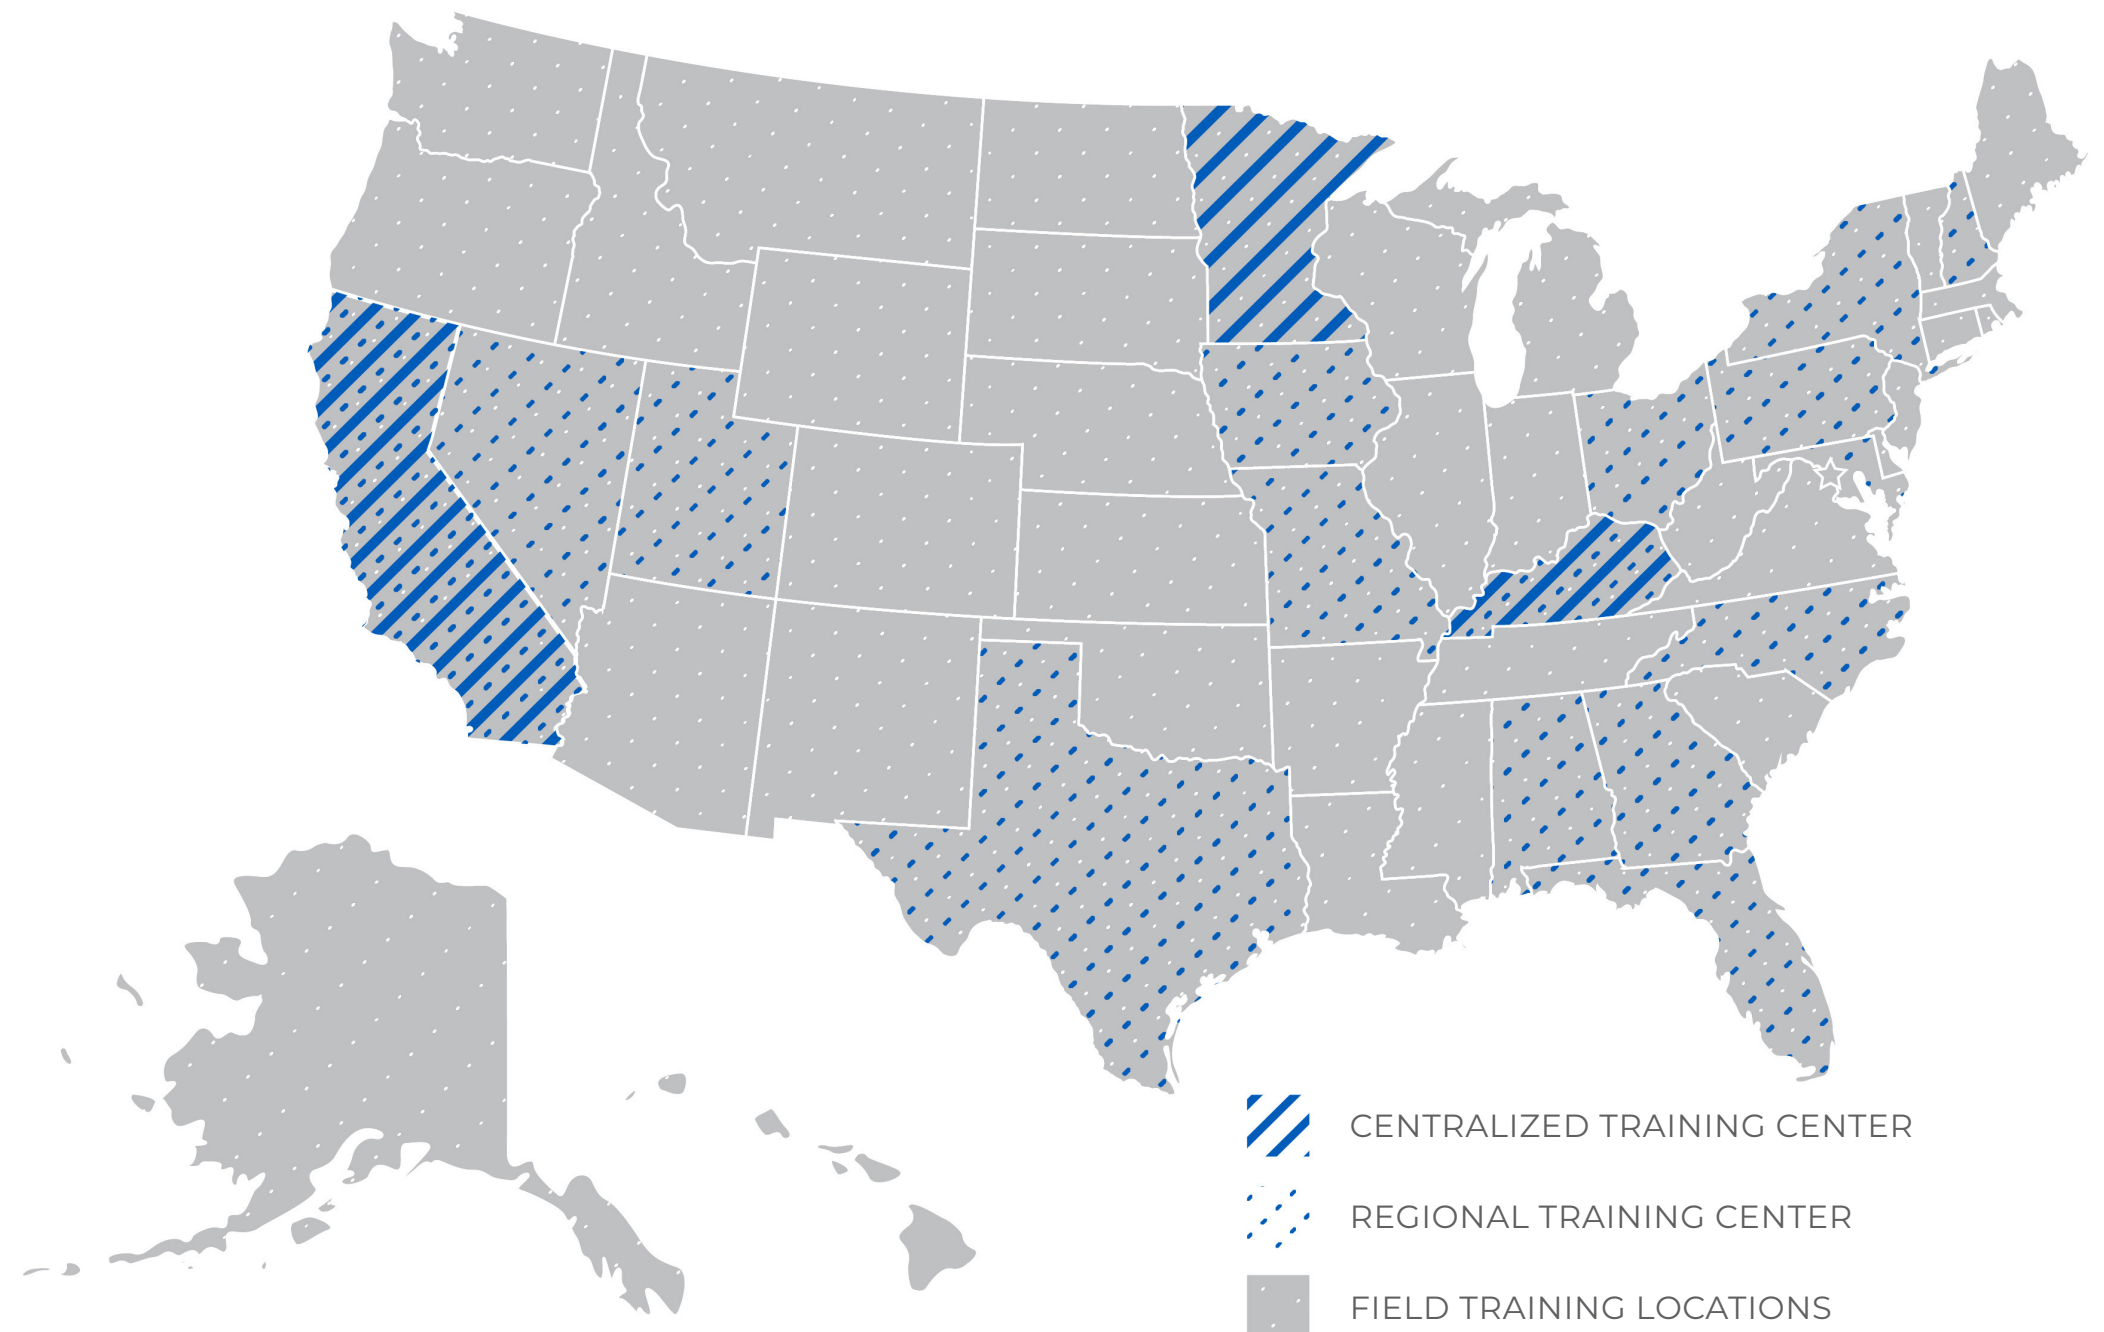

Dycom's **15,000+ person** skilled craft workforce underpins our ability to consistently deliver services to our customers and communities at safety and quality levels that define the industry

SKILLED CRAFT WORKFORCE AND ROBUST TRAINING AND TALENT DEVELOPMENT PROGRAMS

- As infrastructure investment continues to rise, so does the demand for a skilled workforce
- Dycom's disciplined and strategic workforce management ensures we can meet our customers' needs and capitalize on the expanding market

INDUSTRY LEADING SAFETY PERFORMANCE AND QUALITY DELIVERY

- Structured Safety and Quality programs empower superior outcomes resulting in increased margins and execution
- Produced strong CY2024 safety outcomes, with TRIR 62% lower and LTIR 84% lower than the average of peer NAICS code 238000 companies

GROWTH ANCHORED BY LONG-TERM AGREEMENTS WITH WELL-ESTABLISHED CUSTOMERS

Multi-year agreements built on long-term partnerships and proven execution

- **Deeply embedded, decades-long partnerships** with major telecom, cable, and network service providers
- **Complemented by new relationships with top hyperscalers**, expanding our market reach and diversifying growth drivers
- **Approximately 90% of revenues** performed under Master Service Agreements and other long-term contracts

Our contract revenues and results of operations exhibit seasonality and are impacted by adverse weather changes as we perform a significant portion of our work outdoors. Consequently, adverse weather, which is more likely to occur with greater frequency, severity, and duration during the winter, as well as reduced daylight hours, impact our operations during the fiscal quarters ending in January and April.

DEBT AND LIQUIDITY OVERVIEW

Debt maturity profile and strong liquidity position provide financial flexibility

This slide was used on August 20, 2025 in connection with the Company's conference call for its fiscal 2026 second quarter results. This information is provided for your reference only and should not be interpreted as a reiteration of these projections by the Company at any time after the date originally provided. Reference is made to slide 2 titled "Important Information" with respect to this slide. The information and statements contained in this slide that are forward-looking are based on information that was available at the time the slide was initially prepared and/or management's good faith belief at that time with respect to future events. Except as required by law, the Company may not update forward-looking statements even though its situation may change in the future. For a full copy of the conference call materials, see the Company's Form 8-K filed with the Securities and Exchange Commission on August 20, 2025.

FISCAL 2026 OUTLOOK

FISCAL YEAR ENDING JANUARY 31, 2026

We are reaffirming our Fiscal 2026 revenue outlook range of **\$5.290 billion to \$5.425 billion**, representing a range of 12.5% to 15.4% total growth over the prior year.

We continue to see a marketplace of unprecedented opportunity as our customers' ambitious plans grow. The increasing addressable market, coupled with our proven ability to execute, bolster our confidence to achieve our full-year growth target.

Fiscal 2026 will include 53 weeks of operations due to our fiscal calendar, with the extra week occurring in the Company's fiscal fourth quarter when operations are normally seasonally impacted by winter weather

Additionally, fiscal 2025 included \$114.2 million of storm restoration services and we have not included storm restoration revenues in our fiscal 2026 outlook

NON-GAAP RECONCILIATIONS

EXPLANATION OF NON-GAAP FINANCIAL MEASURES

The Company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). In the Company's quarterly results releases, slide presentations, conference calls, and webcasts, it may use or discuss Non-GAAP financial measures, as defined by Regulation G of the Securities and Exchange Commission. The Company believes that the presentation of certain Non-GAAP financial measures in these materials provides information that is useful to investors because it allows for a more direct comparison of the Company's performance for the period reported with the Company's performance in prior periods. The Company cautions that Non-GAAP financial measures should be considered in addition to, but not as a substitute for, the Company's reported GAAP results. Management defines the Non-GAAP financial measures used as follows:

- **Non-GAAP Organic Contract Revenues** - contract revenues from businesses that are included for the entirety of both the current and prior year periods, excluding contract revenues from certain non-recurring items. Non-GAAP Organic Contract Revenue change percentage is calculated as the change in Non-GAAP Organic Contract Revenues from the comparable prior year period divided by the comparable prior year period Non-GAAP Organic Contract Revenues. For comparability to other companies in the industry, the Company includes storm restoration revenues from businesses that are included for the entirety of both the current and prior year periods in its Non-GAAP Organic Contract Revenues beginning with the results reported for the fourth quarter and fiscal year ended January 25, 2025.
- **Non-GAAP Adjusted EBITDA** - EBITDA (earnings before interest, taxes, depreciation and amortization) adjusted for gain on sale of fixed assets, stock-based compensation expense, and certain non-recurring items. Management believes Non-GAAP Adjusted EBITDA is a helpful measure for comparing the Company's operating performance with prior periods as well as with the performance of other companies with different capital structures or tax rates.
- **Non-GAAP Adjusted Effective Tax Rate** - provision for income taxes adjusted for the tax impacts of certain non-recurring items. Management believes Non-GAAP Adjusted Effective Tax Rate is a useful performance measure for investors because it provides an ongoing effective tax rate that they can use for historical comparisons and forecasting.
- **Non-GAAP Adjusted Net Income** - GAAP net income before certain non-recurring items and the related tax impact. Management believes Non-GAAP Adjusted Net Income is a helpful measure for comparing the Company's operating performance with prior periods.
- **Non-GAAP Adjusted Diluted Earnings per Common Share** - Non-GAAP Adjusted Net Income divided by weighted average diluted shares outstanding.
- **Notional Net Debt** - aggregate face amount of outstanding debt less cash and equivalents. Management believes notional net debt is a helpful measure to assess the Company's liquidity.
- **Net Leverage Ratio (Notional Net Debt/Adjusted EBITDA)** - Notional Net Debt divided by the sum of the most recent four quarters of Non-GAAP Adjusted EBITDA. Management believes Net Leverage Ratio is a useful measure for assessing liquidity.
- **Return on Invested Capital (ROIC)** - return on average invested capital for the period(s) presented. Management believes ROIC is a helpful measure for comparing the Company's operating and capital efficiency.

NOTES

1. In January 2018, the company changed its fiscal year end from the last Saturday in July to the last Saturday in January. TTM18 represents the trailing twelve months ending January 2018. FY10 through FY17 represent fiscal years ending in July and FY19 through FY25 represent fiscal years ending in January.
2. Master Service Agreements (MSA's) are multi-year arrangements covering thousands of individual work orders generally with exclusive requirements. Dycom is party to hundreds of MSA's and other agreements with customers that extend for periods of one or more years. Multiple agreements are typically maintained with each customer.
3. The Company's backlog represents an estimate of services to be performed pursuant to master service agreements and other contractual agreements over the terms of those contracts. These estimates are based on contract terms and evaluations regarding the timing of the services to be provided. In the case of master service agreements, backlog is estimated based on the work performed in the preceding 12-month period, when available. When estimating backlog for newly initiated master service agreements and other long and short-term contracts, the Company also considers the anticipated scope of the contract and information received from the customer during the procurement process. A significant majority of the Company's backlog comprises services under master service agreements and other long-term contracts. Backlog is not a measure defined by United States generally accepted accounting principles (GAAP) and should be considered in addition to, but not as a substitute for, information provided in accordance with GAAP. Participants in the Company's industry also disclose a calculation of their backlog; however, the Company's methodology for determining backlog may not be comparable to the methodologies used by others. Dycom utilizes the calculation of backlog to assist in measuring aggregate awards under existing contractual relationships with its customers. The Company believes its backlog disclosures will assist investors in better understanding this estimate of the services to be performed pursuant to awards by its customers under existing contractual relationships.
4. The impacts of a change order and the closeout of several projects increased contract revenues by \$26.5 million for the quarter ended October 28, 2023 and fiscal year ended January 27, 2024. After the impacts of certain other costs, these items contributed \$23.6 million to Adjusted EBITDA for the quarter ended October 28, 2023 and fiscal year ended January 27, 2024. As a result, reported Adjusted EBITDA was increased by 1.8% and 0.6% as a percentage of contract revenues for the quarter ended October 28, 2023 and fiscal year ended January 27, 2024, respectively. On an after-tax basis, these items contributed approximately \$17.5 million to reported net income, or \$0.59 per common share diluted for the quarter ended October 28, 2023 and fiscal year ended January 27, 2024. Non-GAAP Organic Revenue Growth %, Non-GAAP Adjusted EBITDA, Non-GAAP Adjusted EBITDA %, Non-GAAP Adjusted Net Income and Non-GAAP Adjusted Diluted Earnings per Common Share exclude the impact of these items for the quarter ended October 28, 2023 and fiscal year ended January 27, 2024. Beginning in the quarter ended October 26, 2024, the Company excluded the impact of the change order from the prior year amount for calculations of Non-GAAP Organic Contract Revenues.
5. During Q3 2025 revenues from storm restoration services were \$46.3 million, of which \$25.2 million were from acquired businesses and \$21.1 million was from businesses that were owned for the entirety of both the current and prior year periods. Non-GAAP Organic Revenue growth was 9.6% including the \$21.1 million from businesses that were owned for the entirety of both the current and prior year periods compared to 7.6% when total storm restoration services of \$46.3 million are excluded from the calculation. Total revenues from acquired businesses were \$105.3 million including the \$25.2 million of storm restoration services. During fiscal 2022 revenues from storm restoration services were \$3.9 million. Non-GAAP Organic Revenue growth for fiscal 2023 was 21.7% when including the fiscal 2022 storm restoration services in the calculation compared to 21.8% when total storm restoration services are excluded from the calculation.
6. As of both Q2 2026 and Q1 2026, the Company had \$47.5 million of standby letters of credit outstanding under the Senior Credit Facility.
7. Liquidity represents the sum of availability from the Company's Senior Credit Facility, considering net funded debt balances, and available cash and equivalents. For calculation of availability under the Senior Credit Facility, applicable cash and equivalents are netted against the funded debt amount.
8. DSO is calculated as the summation of current and non-current accounts receivable (including unbilled receivables), net of allowance for doubtful accounts, plus current contract assets, less contract liabilities, divided by average revenue per day during the respective quarter. Long-term contract assets are excluded from the calculation of DSO, as these amounts represent payments made to customers pursuant to long-term agreements and are recognized as a reduction of contract revenues over the period for which the related services are provided to the customers.

NOTES (CONT.)

9. Amounts represent contract revenues from acquired businesses that were not owned for the entirety of both the current and prior year periods.
10. The Company recognized a loss on debt extinguishment of approximately \$1.0 million in connection with the amendment of its credit agreement during the quarter ended July 27, 2024.
11. The Company incurred costs of approximately \$4.2 million in connection with the integration of a business acquired during the quarter ended October 26, 2024. The Company also incurred acquisition related costs of approximately \$6.8 million and \$0.2 million in the fiscal years ended July 27, 2013 and July 30, 2011, respectively.
12. In connection with the Company's CEO succession plan completed in November 2024, the Company incurred approximately \$11.4 million of stock-based compensation modification expense. Of this total, approximately \$2.2 million, \$7.1 million, and \$2.1 million was recognized during the quarters ended July 27, 2024, October 26, 2024, and January 25, 2025, respectively.
13. During the fiscal years ended January 30, 2021, July 26, 2014, July 27, 2013, July 30, 2011 and July 31, 2010, the Company incurred pre-tax charges for wage and hour litigation settlements.
14. During the fiscal year ended January 30, 2021, the Company incurred a goodwill impairment charge of \$53.3 million for a reporting unit that performs installation services inside third party premises.
15. During the fiscal year ended January 25, 2020, the Company recorded an \$8.2 million pre-tax charge for estimated warranty costs for work performed for a customer in prior periods.
16. During the fiscal year ended January 26, 2019, the Company recognized a pre-tax non-cash charge for accounts receivable and contract assets of \$17.2 million related to balances owed from a customer. On February 25, 2019, this customer filed a voluntary petition for reorganization. During the fiscal year ended January 25, 2020, the Company recognized \$10.3 million of pre-tax income from the recovery of previously reserved accounts receivable and contract assets in the first quarter based on collections from a customer.
17. During the fiscal year ended July 27, 2013, the Company incurred a pre-tax write-off of \$0.3 million of deferred financing costs in connection with the replacement of the Company's credit facility in December 2012.
18. During the fiscal year ended January 25, 2020, the Company entered into a contract modification in the second quarter that increased revenue produced by a large customer program. As a result, the Company recognized \$11.8 million of contract revenues for services performed in prior periods, \$0.8 million of related performance-based compensation expense, and \$1.0 million of stock-based compensation. On an after-tax basis, these items contributed approximately \$7.3 million to net income, or \$0.23 per common share diluted, for the fiscal year ended January 25, 2020. These amounts are excluded from the calculation of Non-GAAP Adjusted EBITDA for the fiscal year ended January 25, 2020.
